

the vacuum mount

The versatility and simplicity of our vacuum mounts make SeaSucker products the easiest and most efficient way to secure gear on the boat.

Pump to evacuate air and create a vacuum.

Orange indicator band disappears when fully mounted.

Indicator band will extend and show orange when mount loses vacuum over time.

Expected duration without showing orange: 24-48 hrs.

Why SeaSucker?

STOP DRILLING HOLES IN YOUR BOAT.

No drills required! With SeaSucker mounts, there's no need to spend time measuring, anchoring, and drilling holes when installing a new accessory.

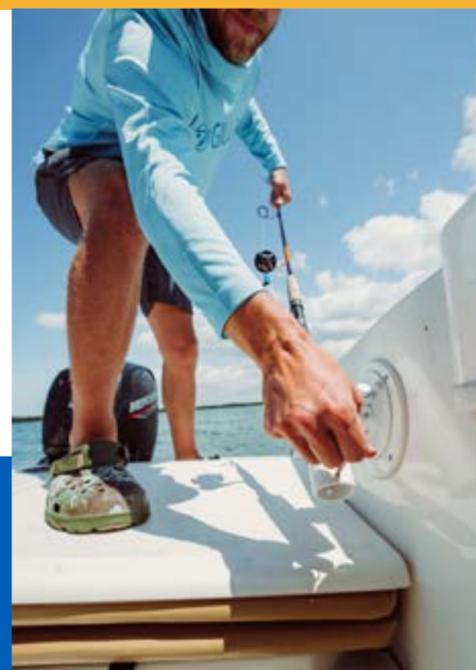

EASY TO MOVE ON THE GO.

Bringing your favorite cup holder from boat to boat is no problem with SeaSucker! You can also move your SeaSucker around the boat with ease. Our products take seconds to install & remove.

INDUSTRIAL-GRADE MOUNTS MADE IN THE USA.

Incredibly strong. See why all the biggest names in the industry trust SeaSucker to transport their gear.

Simply pump to attach!

the marine line
